HELD OR REFUSED DOSES · which, when, and why

## As-needed (PRN) doses this week

| MEDICATION | DOSE | DATE & TIME GIVEN | REASON | GIVEN BY |
|------------|------|-------------------|--------|----------|
|            |      |                   |        |          |
|            |      |                   |        |          |
|            |      |                   |        |          |

# Current Prescription Medications

One line per medicine. Include the reason it is taken and any special instructions, such as with food or apart from other medicines. Date every change.

| MEDICATION (BRAND & GENERIC) | REASON TAKEN | DOSE & DIRECTIONS | PRESCRIBED BY | STARTED | PHARMACY |
|------------------------------|--------------|-------------------|---------------|---------|----------|
|                              |              |                   |               |         |          |
|                              |              |                   |               |         |          |
|                              |              |                   |               |         |          |
|                              |              |                   |               |         |          |
|                              |              |                   |               |         |          |
|                              |              |                   |               |         |          |
|                              |              |                   |               |         |          |
|                              |              |                   |               |         |          |
|                              |              |                   |               |         |          |
|                              |              |                   |               |         |          |
|                              |              |                   |               |         |          |

## Recent changes

New medicine, dose change, or stopped. Note the date and who advised it.

# Everything Else That Counts

Vitamins, supplements and herbal products interact with prescriptions too. List all of them.

## Over-the-counter, vitamins, supplements & herbal products

| PRODUCT | REASON TAKEN | DOSE & HOW OFTEN | STARTED | NOTES |
|---------|--------------|------------------|---------|-------|
|         |              |                  |         |       |
|         |              |                  |         |       |
|         |              |                  |         |       |
|         |              |                  |         |       |
|         |              |                  |         |       |
|         |              |                  |         |       |

## Stopped medicines & why

Include anything stopped for side effects, reactions, cost, or because it did not work.

| MEDICATION | WHY STOPPED | DATE | WHO ADVISED |
|------------|-------------|------|-------------|
|            |             |      |             |
|            |             |      |             |
|            |             |      |             |
|            |             |      |             |

## Allergies & reactions

| MEDICATION / SUBSTANCE | WHAT HAPPENS ON EXPOSURE |
|------------------------|--------------------------|
|                        |                          |
|                        |                          |
|                        |                          |
